

Amarnath K.P

Senior Software Engineer — React.js

Kochi, Kerala, India | +91 97455 53852 | aamarnathkp@gmail.com

Portfolio: aamarnathkp.vercel.app | LinkedIn: linkedin.com/in/aamarnathkp | GitHub: github.com/aamarnathkp

SUMMARY

Self-motivated software engineer with over 9 years of experience in software development, including 6+ years specializing in React.js at a senior/associate level. Skilled in identifying web-based user interactions, designing and implementing highly responsive UI components, and applying advanced React concepts to translate designs into high-quality, production-grade code. Also experienced as a backend Erlang developer, with a track record of mentoring junior developers and driving adoption of coding best practices across teams.

TECHNICAL SKILLS

- Key Skills: JavaScript (ES6), HTML5, CSS3, ReactJS, Redux, Jotai, TypeScript, Erlang/OTP, Jest, Playwright
- Database: Mnesia, CouchDB
- Version Control & Tooling: Git, Jenkins
- Gen AI Tools/Frameworks Knowledge: Cursor, Claude

PROFESSIONAL EXPERIENCE

Senior Associate — Frontend ReactJS Developer

Cognizant Technology Solutions

Feb 2022 – Present

Kochi, Kerala, India

Projects: Molina HealthCare, Rentokil Initial, Intuit

- Mentor and coach junior developers to improve their coding skills and ensure adherence to best practices
- Use TypeScript to enforce type checking and other best practices, writing cleaner, more maintainable code
- Build modern, functional React applications using Hooks, following the latest React.js patterns
- Style applications using Bootstrap, SASS, and Styled Components for consistent, maintainable UI
- Integrate REST and GraphQL APIs using Axios and Apollo Client
- Manage application state using Redux and Jotai across multiple client projects
- Own unit testing with Jest and end-to-end/automation testing with Playwright

Project: Intuit (3+ years)

- Work on multiple ReactJS widgets, including Investigation, Recommendations, Appointments, AI Summary, Transcript, Cart UI, etc.
- Build and maintain integrations with the Salesforce (SFDC) and IEP platforms
- Collaborate across multiple cross-functional teams to deliver widget features end-to-end

Software Engineer — Full Stack Developer

Netstratum Technologies Pvt Ltd

Feb 2017 – Feb 2022

Kochi, Kerala, India

Projects: Contact Center Services (product), Voifinity (product), Mayship

- Led frontend migration from ExtJS to ReactJS across core product modules
- Frontend: built live dashboard, reporting, provisioning, and call history modules in React
- Backend: designed and built RESTful and WebSocket APIs in Erlang, integrated end-to-end with ReactJS
- Backend: developed queue call handling, call enhancement, reporting, call logging, and chat queue modules
- Established backend project architecture for Mayship from the ground up
- Worked directly with clients on requirement gathering and ongoing clarifications
- Followed Agile methodology; used Git for version control and Jenkins for RPM build automation

EDUCATION

Master of Computer Application

SNGCE (MG University)

Jun 2013 – Dec 2016

Kolenchery, Kerala
